ACCESSORIES MAKE THE DIFFERENCE

Selecting the appropriate nozzle is crucial. Consider the type of cleaning job you're undertaking, the maximum pressure rating of your washer, and the surface you'll be cleaning. Using an overly aggressive nozzle can damage surfaces, whereas a less intense one may not give the desired results.

0° (Red): For maximum cleaning power on hard surfaces.

15° (Yellow): Ideal for heavy-duty cleaning like stripping paint.

25° (Green): Perfect for general cleaning tasks.

40° (White): The go-to for delicate surfaces.

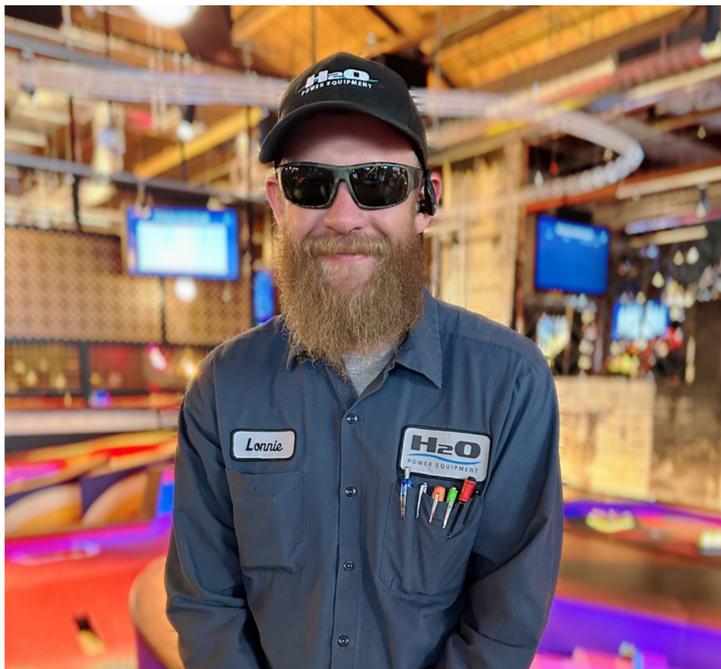

65° (Black): Used for applying detergent.

Our team of experts is always ready to guide you. If you're unsure of what's suitable for your equipment, don't hesitate to ask us! Visit us at our showroom in Denver, or shop our extensive online store today. Discover the difference the right part can make to your pressure washing experience.

TEAM H2O

We're able to do what we do because of our people.
Thank you to all of our hard-working team members!

Meet Lonnie, a skilled technician with a passion for all things H2O! Lonnie celebrated his 8th anniversary with us in August, and is always eager to tackle new challenges and deliver top-notch solutions. What sets Lonnie apart is his upbeat attitude - no problem is too big or small for him to handle with a smile on his face!

Meet Aaron, our incredible team member who has been with us for an impressive 10 years in September! Aaron plays a vital role in our company, taking care of a wide range of tasks, including customer service, invoicing, parts and inventory management, and service scheduling.

Team H2O recently gathered at Puttshack in Denver for a spectacular day of fun and laughter. The venue was the perfect setting for a team outing, complete with state-of-the-art mini-golf courses; we were all excited to gather and spend some quality time together outside of the office.

CELEBRATING MIKE PAULS

It is with great pleasure and a little bit of sadness that we announce the upcoming retirement of our very own Mike Pauls, who has been an integral part of our team for 36 years at H2O Power Equipment. As September 16th marks his anniversary with the company, we want to take a moment to express our heartfelt gratitude for everything he has done for this company and our customers over the years.

Mike's unwavering dedication to his work, combined with his exceptional professionalism, expertise, and reliability, have contributed immensely to our success as a team. He has been a true rock for all of us, embodying the very essence of what it means to be a team player.

It's not just Mike's work ethic that we will miss, however. His sense of humor and positive attitude have been a constant source of inspiration and joy for all of us. He has always been there with a kind word, a joke, or a listening ear when we needed it most.

As we bid Mike a fond farewell, we cannot emphasize enough how much he will be missed. However, we are happy and excited for him as he embarks on the next chapter of his life, and we want to congratulate him on a well-deserved retirement.
