*Offer ends 11/30/2023 on new Landa pressure washers. Funding limited to MSRP. All plans are subject to credit approval and taxes; offer available only in the continental U.S. Rates are subject to change by lessor. Other terms and conditions apply. See H2O Power Equipment for more details!

SAVE MONEY AND ENERGY WITH A WASTE OIL HEATER

Slash your winter heating costs with an eco-friendly waste oil boiler or heater from H2O Power Equipment.

Maximize fuel efficiency: Harness the power of EL's cutting-edge combustion technology to extract the maximum amount of heat from every drop of fuel.

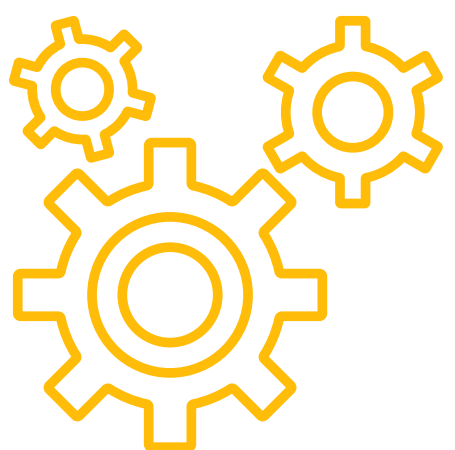

Burn more types of oil: Effortlessly burn waste oil of varying weights, from 5 to 90, including synthetics, without any manual adjustments needed.

Cleaning made simple: Experience hassle-free maintenance thanks to the convenient swing-away burner and ash removal port.

On-board air compressor: Now you can effortlessly use your tools and operate the furnace simultaneously.

Custom solutions: Discover the perfect solution for your space that is tailored to your needs. Choose from the largest selection of accessories in the industry.

Turn Up the Heat and Turn Down Costs: EnergyLogic Waste Oil Heaters

As the brisk air gives way to the chill of winter, businesses across Colorado are gearing up for the season's frosty embrace. At H2O Power Equipment, we offer an innovative and strategic solution to curb your winter heating expenses: EnergyLogic Waste Oil Heaters.

EnergyLogic stands as a beacon in the industry, delivering comprehensive waste oil heating systems that go beyond merely providing warmth. These heaters embody efficiency, innovation, and sustainability. They transform waste oil, often a disposal nuisance for many businesses, into a potent heat source. This ingenious solution allows you to repurpose what was previously regarded as waste into a practical, cost-saving heating solution.
