Keep Your Equipment Running Strong with H2O Service

Your pressure washer is critical for your business, and proper maintenance ensures peak performance and longevity. Downtime due to avoidable issues can cost time and money, so staying on top of maintenance is key.

At H2O Power Equipment, we provide expert service, top-tier parts, and the knowledge to keep your equipment running at full capacity.

page on Facebook!**

0% FINANCING MAKES IT EASY TO UPGRADE

Looking to upgrade your equipment or stock up on detergents without tying up your cash flow? Now's the time to move.

From May 1 through June 30, 2025, H2O Power Equipment is offering 0% interest for 12 months on all new Landa and Kärcher equipment and detergents. That means no upfront cost, no interest charges — just 12 equal monthly payments. Take the total cost, divide it by 12, and you're good to go!

This offer gives you more flexibility to invest in the tools your business needs now without the financial pressure. Whether it's a hot water pressure washer, surface cleaner, or a full custom trailer build, this financing makes it easier to close the gap between what you need and what your budget allows.

PRESSURE WASHER MAINTENANCE TIPS

1

Cool Down Your Heater Before Shutdown:

Turn off the heater before shutting down your pressure washer to prevent internal damage.

2

Avoid Rapid Trigger Cycling:

Repeatedly pulling the trigger on and off damages the unloader valve—shut the machine off if pausing for more than a few minutes.

3

Inspect Hoses Regularly:

Check hoses for wear and exposed wire braid—replace damaged hoses immediately. **(Yes, we sell high-quality replacement hoses!)**

4

Ensure Compliance:

Landa pressure washers require a 24-inch hose guard to meet UL Certifications for safety.

5

Check Fittings for Leaks:

Inspect all fittings before each use to ensure they are secure, fastened properly, and leak-free.

MAINTENANCE GUIDE

STOCKED & READY: PARTS THAT KEEP YOU RUNNING

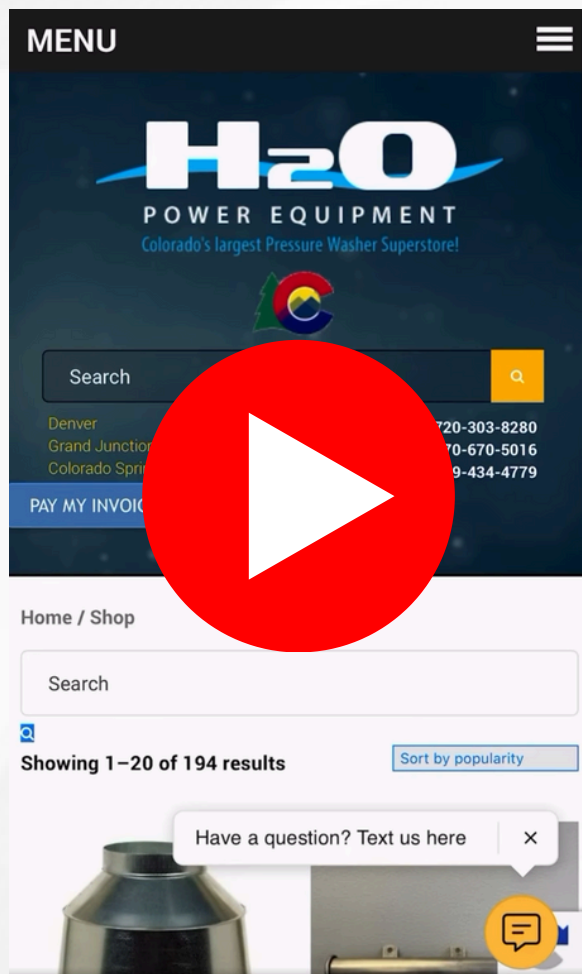

Downtime Costs You. We Help You Keep Running.

At H2O Power Equipment, we don't just stock parts—we stock solutions. Our fully stocked parts department carries belts, valves, hoses, pumps, unloaders, burner parts, and everything in between. We support all major pressure washer and industrial cleaning equipment brands, so when your machine needs attention, we've got what it takes to keep you running.

Need parts fast? Shop our online store 24/7 for hassle-free ordering. Not sure what you're looking for? Our expert team will help you identify the right part the first time—no guesswork, no wasted time.

Whether it's in-shop or on-site, our certified techs know their way around every make and model. We operate a fleet of fully equipped service trucks covering all of Colorado and southern Wyoming. When your equipment breaks down, we bring the fix to you—fast.

BOOK SERVICE

Did you know H2O Power Equipment offers a fully stocked parts department at our locations AND an easy-to-use online store?

We carry a massive inventory of replacement parts, including high-pressure hoses, nozzles, fittings, pumps, unloader valves, and more.

ESSENTIAL ACCESSORIES

More Power. More Precision. Less Hassle.

Maximize the output of your equipment with the right accessories—because the job doesn't get done right without the right tools. The right attachments can cut your cleaning time in half and reduce wear on your system.

At H2O Power Equipment, we carry the pro-grade accessories that add power, precision, and protection to your operation—so every job gets done faster and better, without beating up your gear.

Pressure Wands

Gain precision and reach. From variable pressure to flex and extension wands, we've got options for every cleaning job.

Turbo Nozzles

Turbo nozzles boost cleaning impact by rotating a 0° spray pattern at high speed—ideal for blasting away tough grime fast.

Inline Filters & Couplers

Protect your pump from sediment and debris. Inline filters are a small investment that saves you from major equipment damage.

[SHOP NOW](#)

Our new Concrete Cleaner is a heavy-duty, alkaline powder that dissolves grease, oil, and grime on contact.

The chemical action does the work, so you don't have to — saving time, labor, and effort on every job.

CONCRETE CLEANER

LIMPIADOR DE HORMIGÓN

Powerful cleaner dissolves grease, oil, and grime from concrete surfaces

The chemical action does the work and saves labor.

AMERICAN MADE

SERVICE THAT KEEPS YOU IN BUSINESS

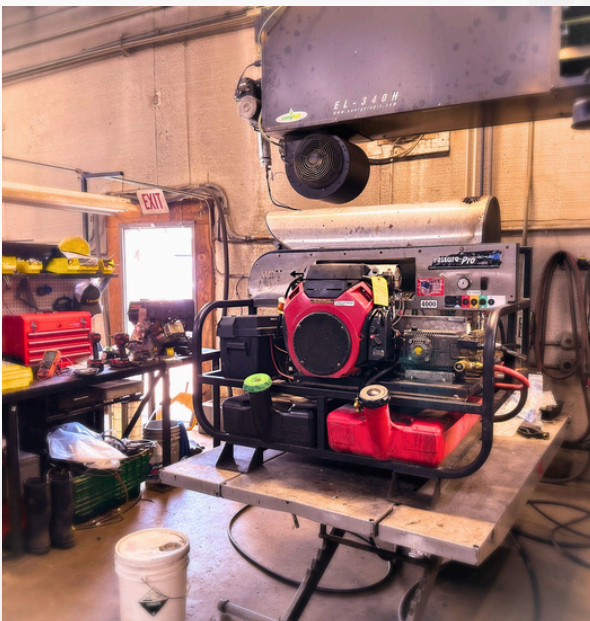

Factory-Trained Techs. On-Site or In-Shop.

Downtime costs you money. That's why H2O Power Equipment runs one of the most experienced and responsive service teams in Colorado and Southern Wyoming. Whether you bring it to us or we come to you, our job is to get your equipment running and keep it running—without the delays, guesswork, or backorders you get from general repair shops.

Our factory-trained technicians have hands-on experience with all major brands of pressure washers, parts washers, and industrial cleaning systems.

- ✓ Fully stocked service trucks ready to dispatch to your jobsite
- ✓ In-shop repairs with fast turnaround and extensive parts inventory
- ✓ Preventative Maintenance Programs to keep breakdowns from happening in the first place
- ✓ Emergency repairs, complex diagnostics, and custom system support

Why Choose H2O?

Our service pros are industry leaders, experts who know how to diagnose, repair, and optimize even the most complex cleaning systems. Whether you choose to visit us in Colorado Springs or Denver, our shops are equipped and our team is ready to serve you.

We don't guess. We get it done.
